Energy Policy

Index to Volume 15

February, April, June, August, October,

December 1987

Articles – titles

Electricity

Electric power plant in India: A strategic of self-reliance. *John Surrey*. 15.6, 503–521

Electric utility energy conservation and load management programmes: R & D opportunities. *Eric Hirst*. 15.2, 103–108

Hydroelectricity in West Africa: its future role. *J.B.C. Lazenby and P.M.S. Jones*. 15.5, 441–455

UK government controls and the electricity supply industry since 1980. *Frank Rodriguez*. 15.5, 463–474

Rural electricity in the Philippines: planning issues. *Jayant A. Sathaye*. 15.4, 339–351

Rural electrification in developing countries: a reappraisal. *David Pearce and Michael Webb*. 15.4, 329–338

The effects of conservation programmes on electric utility earnings: results of two case studies. *E. Kahn, C. Pignone, J. Eto, J. McMahon and M. Levine*. 15.3, 249–261

Energy analysis

Extending cost-benefit analysis for energy investment choices. *David Simpson and James Walker*. 15.3, 217–227

Net energy as an energy planning tool. *Malcolm Slesser*. 15.3, 228–238

Bonneville's conservation policy analysis models, *Andrew Ford, Michael Bull and Roger E. Naill*. 15.2, 109–124

The fatal flaws in the Sizewell report: A review of the economics of Sizewell B. *J.W. Jeffery*. 15.5, 456–462

Structuring West Germany's energy objectives. *Ralph L. Keeney, Ortwin Renn and Detlof V. Winterfeld*. 15.4, 352–362

A decision analysis of the commercial demonstration fast reactor. *Adam Kreczko, Nigel Evans and Chris Hope*. 15.4, 303–314

Energy conservation and efficiency

Approaches to energy conservation management in beverage-related industries and their effectiveness. *S.D. Fawkes and J.K. Jacques*. 15.6, 559–566

Bonneville's conservation policy analysis models. *Andrew Ford, Michael Bull and Roger E. Naill*. 15.2, 109–124

Energy conservation in Chinese housing. *Robert M. Wirtshafter and Chang Songying*. 15.2, 158–168

Energy conservation policies in the OECD: did they make a difference? *Lee Schipper*. 15.6, 538–548.

Energy efficiency in rental housing. *Joseph Laquatra*. 15.6, 549–558

Hard-to-heat estates: Evaluating the benefits of heating and insulation improvements. *Bill Sheldrick*. 15.2, 145–157

Implementing a practical fuelwood conservation policy: The case of Sri Lanka. *P. Meier and M. Munasinghe*. 15.2, 125–134

The effects of conservation programmes on electric utility earnings: results of two case studies. *E. Kahn, C. Pignone, J. Eto, J. McMahon and M. Levine*. 15.3, 249–261

Electric utility energy conservation and load management programmes: R & D opportunities. *Eric Hirst*. 15.2, 103–108

Improving market place efficiency in the non-oil energy sectors. *Tom Berrie*. 15.4, 315–328

Energy security and world trade

China's energy resources: potential supply, problems and implications. *James P. Dorian and Allen L. Clark*. 15.1, 73–90

Energy – output ratios and sectoral energy use: the case of Southeast Asian countries. *B.W. Ang*. 15.3, 262–282

The International Energy Agency and the development of the Stocks Decision. *Glen Toner*. 15.1, 40–58

Petroleum development in Brazil: The strategic role of a national oil company. *John Surrey*. 15.1, 7–21

Energy politics in the USA and Canada. *Eric M. Uslaner*. 15.5, 432–440

Electric power plant in India: A strategy of self-reliance. *John Surrey*. 15.6, 503–521

External debt and oil prices: some prospects for oil-exporting developing countries. *Ira Sohn*. 15.5, 408–420

Bearish petroleum prospects and their impact on development in the European countries. *Bálint Balkay*. 15.4, 295–302

Energy supply and demand

The price of oil: lower and upper bounds. *Michael B. Morrison*. 15.5, 399–407

Substitution of petroleum products in Brazil. *Joao Lizardo de Araujo and Andre Ghirardi*. 15.1, 22–39

OPEC's return to fixed oil pricing: *Massood V. Samii*. 15.5, 421–431

Energy conservation policies in the OECD: did they make a difference? *Lee Schipper*. 15.6, 538–548

Energy supply and net energy in New Zealand. *N.J. Peet, J.T. Baines, M.G. Macdonald. J.C. Tohill and R.M. Bassett*. 15.3, 239–248

Energy issues and policies in Eastern Europe. *W.G. Davey*. 15.1, 59–72

National energy profiles and government policy

China's energy resources: potential supply, problems and implications. *James P. Dorian and Allen L. Clark*. 15.1, 73–90
Energy issues and policies in Eastern Europe. *W.G. Davey*. 15.1, 59–72
Energy politics in the USA and Canada. *Eric M. Usalaner*. 15.5, 432–440
Energy supply and net energy in New Zealand. *N.J. Peet, J.T. Baines, M.G. Macdonald, J.C. Tohill and R.M. Bassett*. 15.3, 239–248
Energy – output ratios and sectoral energy use: the case of Southeast Asian countries. *B.W. Ang*. 15.3, 262–282
Objectives in Irish energy policy. *Desmond A. Gilmor*. 15.4, 363–375
Structuring West Germany's energy objectives. *Ralph L. Keeney, Ortwin Renn and Detlof V. Winterfeld*. 15.4, 352–362
Substitution of petroleum products in Brazil. *Joao Lizardo de Araujo and Andre Ghirardi*. 15.1, 22–39
Petroleum development in Brazil: the strategic role of a national oil company. *John Surrey*. 15.1, 7–21
Electric power plant in India: a strategy of self-reliance. *John Surrey*. 15.6, 503–521
UK government controls and the electricity supply industry since 1980. *Frank Rodriguez*. 15.5, 463–474
Energy conservation in Chinese housing. *Robert M. Wirtshafter and Chang Songying*. 15.2, 158–168
Implementing a practical fuelwood conservation policy: The case of Sri Lanka. *P. Meier and M. Munasinghe*. 15.2, 125–134

Nuclear power

A decision analysis of the commercial demonstration fast reactor. *Adam Kreczko, Nigel Evans and Chris Hope*. 15.4, 303–314
The fatal flaws in the Sizewell report: a review of the economics of Sizewell B. *J.W. Jeffery*. 15.5, 456–462

Oil and gas

Bearish petroleum prospects and their impact on development in the European countries. *Bálint Balkay*. 15.4, 295–302
External debt and oil prices: some prospects for oil-exporting developing countries. *Ira Sohn*. 15.5, 408–420
Government divestments and the regulation of natural monopolies in the UK: the case of British Gas. *Mike Wright*. 15.3, 193–216
OPEC's return to fixed oil pricing. *Massood V. Samii*. 15.5, 421–431
Petroleum development in Brazil: the strategic role of a national oil company. *John Surrey*. 15.1, 7–21
The price of oil: lower and upper bounds. *Michael B. Morrison*. 15.5, 399–407

Third World energy

Improved stoves in developing countries: a critique. *J. Gill*. 15.2, 135–144
Rural electrification in developing countries: a reappraisal. *David Pearce and Michael Webb*. 15.4, 329–338
Hydroelectricity in West Africa: its future role. *J.B.C. Lazenby and P.M.S. Jones*. 15.5, 441–455
Rural electricity in the Philippines: planning issues. *Jayant A. Sathaye*. 15.4, 339–351
External debt and oil prices: some prospects for oil-exporting developing countries. *Ira Sohn*. 15.5, 408–420

Wright, M. Government divestments and the regulation of natural monopolies in the UK: the case of British Gas. 15.3, 193–216

Leaders

Lessons from turmoil – impact on the USA. *Jack W. Wilkinson*. 15.1, 3–4

New directions for UK energy policy? *Chris Hope, Mathew Jones and Susan Owens*. 15.1, 5–6
UK energy issues 1987–92. *Jonathan Stern*. 15.6, 498–502

Communications on energy

The issue-attention cycle: a question of impact on energy conservation policy in West Germany. *Jobst Conrad*. 15.6, 567–569
Who pays for the long-term costs of nuclear power? *J.W. Jeffery*. 15.4, 376–378

Viewpoints

Administering energy saving: four years on. *Ian Brown*. 15.6, 534–537
Lessons from four crises. *Andrew MacKillop*. 15.3, 190–192
Policy issues in improving energy efficiency. *T.W. Berrie*. 15.6, 529–533
Saving megabucks by saving megawatts. *Andrew Warren*. 15.6, 522–528

Conference reports

Coal 87: Coaltrade/Coaltech, London, 9–11 June 1987. *Walter Patterson*. 15.5, 475
Energy 1986, Lessons from Turmoil. *Fred Thackeray*. 15.2, 173–174
Energy Policies and Market Forces, Institute of Energy, London, 4 March 1987. *Arthur Conway*. 15.4, 379–383
Energy Policies in an Uncertain World, Surrey Energy Economics Centre, University of Surrey, Guildford, UK, 9–10 April 1987. *Peter Pearson*. 15.5, 481–484
European Demonstration Fast Reactor Reprocessing Plant, the Campaign Against Dounreay Expansion, Lerwick, Scotland, 3–5 July 1987. *David Lowry*. 15.6, 573
European Summer School on Radioactive Waste Management, Christ's College, Cambridge, UK, 6–9 July 1987. *David Lowry*. 15.6, 574
International Conference on energy Options, University of Reading, UK, 7–9 April 1987. *Arthur Conway*. 15.5, 476–481
Nemconex '86: Tenth Energy Management Conference, Birmingham, UK, 3–4 December 1986. *Ken Cooper*. 15.2, 169–170
Nuclear energy – the good news for British Industry, Confederation of British Industry one day conference, Centre Point, London, UK, 17 July 1987. *David Lowry*. 15.6, 575–576
Transitions between Traditional & Commercial Energy in the Third World, the 5th Workshop Meeting of the Third World Energy Policy Study Group, University of Surrey, Guildford, UK, 6 October 1986. *Peter Pearson and Paul Stevens*. 15.2, 170–172
The UNICHAL annual meeting, Macro-Symbiosis, Berlin, June 1987. *Norman Jenkins*. 15.6, 570–573

Book reviews

Clean Coal Technology: Programmes and Issues the IEA (Jim Skea). 15.6, 585–586
Energy and Economic Development: The World and South-East Asia by G.D. McColl (Tom Berrie). 15.1, 96
Energy and the Federal Government, Fossil Fuel Policies: 1900–1946 by John G. Clark (Richard L. Gordon). 15.5, 492–493
Energy Conservation in IEA Countries the IEA (David Pearce). 15.6, 583
Energy Demand and Economic Growth: Measurement and Conceptual Issues in Policy Analysis by Corazon Morales Siddayao (L.G. Brookes). 15.4, 390–391
Energy Efficiency and Conservation in Mexico by Oscar Guzman, Antonio Yunez-Naude and Miguel S. Wionczek (Tom Berrie). 15.2, 180
Energy in Europe: Issues and Policies by T. Weyman-Jones (John L. Bindon). 15.6, 583
Energy Strategy in Europe: the Legal Framework by Terence Daintith and Leigh Hancher (David Pearce). 15.6, 588
Ethanol, Employment and Development: Lessons from Brazil by A. Pereira (John Surrey). 15.2, 179–180
Industrial Energy Rationalization in Developing Countries by Julio R. Gamba, David A. Caplin and John Mulckhuyse (Alfredo Behrens). 15.4, 391–392
Middle East Oil Crises Since 1973 by Benjamin Schwardran (Tom Berrie). 15.4, 393–394
Nuclear Economics and the Price of Coal by Nigel Evans and William Bullen (Gordon MacKerron). 15.4, 394
Power From the Earth by Thomas Gold (Fred Roberts). 15.6, 584
Social and Economic Effects of Petroleum Development in Non-OPEC Developing Countries: Synthesis report by John McLin (Andrew MacKillop). 15.5, 491
Power Production: What are the Risks? by J.H. Fremlin (Walt Patterson). 15.6, 586–587
The Private Provision of Public Services in Developing Countries by Gabriel Roth (T.W. Berrie) 15.6, 592
The Theory of Public Utility Pricing by Stephen J. Brown and David S. Sibley (T.W. Berrie). 15.3, 289
Transportation of Soviet Energy Resources by Mathew J. Sagers and Milford B. Green (David Wilson). 15.1, 95
Privatization: The Developing Country Experience an Overseas Development Institute Briefing Paper (T.W. Berrie). 15.4, 392–393

Bookwatch

Natural gas fires the imagination; The fifth fuel comes forth. 15.1, 92–94; Politicking over Petroleum; Going electric. 15.2, 176–178; Timing couplets; Take with water or on the rocks; A waste of energy. 15.3, 286–288; Barrels, loaves and fishes; Self sufficiency in one country. 15.4, 387–389; Nuclear, yes or no?; Energy and/or the environment; The faster wind of change. 15.5, 487–490; The persistence of OPEC; Blips and bathtubs. 15.6, 579–582. *Arthur Conway*

News of the World Bank

15.1, 91; 15.2, 174–176; 15.3, 285–286; 15.4, 384–386; 15.5, 484–486; 15.6, 576–578

Letters to the editor

Authors reply to the book reviewer. *Milford B. Green and Matthew J. Sagers*. 15.5, 493
A reply. *Hillard G. Huntington*. 15.2, 181
The US dollar and the world market. *N.P. Baldwin and R.D. Prosser*. 15.2, 180–181

Addendum

Improved stoves in developing countries. *J. Gill*. 15.3, 283–284

Meetings on energy

15.1, 97–98; 15.2, 185–186; 15.3, 290–291; 15.4, 395–396; 15.5, 495–496; 15.6, 598–599

Publications received

15.2, 182–185; 15.4, 395; 15.5, 494–495; 15.6, 596–597
